

The Amman Stock Exchange (ASE) Announces the Re-Publication of the Trading Data of Government Bonds traded at the Central Bank of Jordan (CBJ)

October 01, 2025

The Amman Stock Exchange (ASE) has commenced re-publishing government bonds trading prices on its website. These bonds, traded over the counter through the system of the Central Bank of Jordan (CBJ) and published on its website.

This initiative seeks to enhance transparency and disclosure level in both the capital market and the government bonds market. By providing reference points for pricing, it enables investors to make more informed and efficient investment decisions. The republished data includes the Clean Price, Dirty Price, Trading Date, and Yield to Maturity.

This is a key step toward strengthening the standing of the Jordanian financial market at both the regional and international levels. It opens greater access to global financial markets, broadens the investor base, and attracts further investment. Moreover, it is aligned with international best practices and reflects the recommendations of the World Bank's Financial Sector Assessment Program (FSAP) for Jordan.
