

Tabadul Overview

Announcement

November 05, 2025 10:56AM

The **Tabadul** platform was launched as a joint initiative between the **Abu Dhabi Securities Exchange (ADX)** and the **Amman Stock Exchange (ASE)**. It was established to fulfill a long-term strategic vision of creating interconnected trading platforms across the region, aimed at strengthening market liquidity and fostering sustainable financial growth.

As a leading regional initiative, **Tabadul** seeks to deepen cooperation between markets and drive a significant transformation in liquidity enhancement. It provides investors with a broader range of financial instruments and service packages by streamlining and advancing trading mechanisms. The platform ultimately aspires to expand its reach to include additional Arab and international markets.

Built on a **mutual market access model**, **Tabadul** enables investors to trade directly on participating exchanges through locally authorized brokers, promoting seamless cross-border investment opportunities.
